Gaming at Monte Carlo.

A CALLAWAY COUNTY WOMAN WHO HAS WON AND LOST THOUS-ANDS OF DOLLARS.

The Fascination O'er the Green Cloth Extends to all Classes of People Who Throng the Magnificent Palaces.

There is an old saving that "al women are gamblers at heart," and really there seems to be something in it, for the fascination of the casino overcomes thousands who would never be suspected at home. Roy alty at Monte Carlo sometimes ob jects to women whose character is painfully evident in their faces, but the bland officials only smile. "All relieved and permanently cured. who have money are free to risk here," is their motto. In truth,the casino is the most democratic place in Europe.

In the little hamlet of Hibernia, in Callaway county, there resided a few years ago a woman whose exploits in the gilded palaces of Monte Carlo were the talk of the whole sporting world. This woman i now known throughout Europe as Clara Long, but in the village where she was reared she is plain Jane Brown. Clara Long has wen and lost fortunes at the seductive gaming table. A few days ago she was ir this city on her way East, where she will remain for awhile and return to Europe, thence to the Mecca of all gamblers. This famous female plunger was not gandily dressed and is of a retiring disposition. She wore jewelry and diamonds, but they were not flashy; Clara Long would never be taken for a woman who has a history.

The famous town of Monte Carlo is in the principality of Monaco, and is bounded everywhere by French territory, and as all restraints are practically withdrawn gambling goes on with more magnificence than

Since 1869 the entire revenue of the principality (it covers but six square miles and has but 6,000 inhabitants) consists of the rents of the casino. From the early morncrowd the hall, until late at night, when the cash is locked in the iron bound chests, continuous change goes on among habitues, but in the last few hours titled ladies and noblemen, famous actresses and sports, criminals and statesmen, in nocent looking girls and grizzled harridans jostle each other around the tables. At one table during the vacation season sits a famous tenor and at an adjacent one a French Duchess, and of her an aneceote is told which illustrates the nature of the place.

She complained to one of the officials that she and her friends receiv- sition to run the water works ed scant courtesy, and as he only machinery. Claude is a steady smiled, she stamped her foot and young man, and we are glad to see said: "Sir, I am a Duchess!" "Madame," was the reply, "all of his natural choice. the ladies who sit here are Duch-

Brawis and "money-snatching," as it is called-that is, taking another's winnings-are frequent, and but a few weeks since an English lady in silks and diamonds slapped another woman's face. Both were locked up for the night, but did not give their real names.

The manager of the casino Monte Carlo has published an an nual statement showing a neat little profit of \$5,700,000 for the season just closed. There has long been suspicion that the robust French tiger is not remaining on the Riviera great many friends in Moberly, died solely for his health.
